

## Single or Twin Head Automatic Volumetric Gear Pump Filling Machine

The automated **EX-FILL-S** is available in both single and twin-head configurations, allowing you to choose the option that best suits your production needs. It features tri-clover fittings for direct IBC/tank feeding, pneumatic nozzles with tailored change parts for bottle necks, and a robust stainless steel frame for stability. A 3-4-metre conveyor with adjustable guide rails and no-bottle-no-fill sensors streamlines production. Diving nozzles, bottle guides, and a flexible gating system ensure precision and simple changeovers across different bottle diameters.

### General Machine Specifications:

- HMI Touch Screen
- Two speed fill
- Electronic control of volume and flow rate
- Fill accuracy: Up to +/- 1.0 %
- Inverter controlled AC brushless motor
- Food and pharmaceutical quality 316 stainless steel and PTFE contact parts
- Single phase supply

### Optional Equipment:

- 6/10/17 litre a minute pumps
- Pneumatic nozzles
- Feed hoppers for gels and creams
- Diving nozzle assembly - for foamy liquids
- 316 Stainless steel feed pipes
- Special seals, hoses and o rings to suit aggressive chemicals
