

## Semi-Automatic Peristaltic Filling Machine

The **EX-FILL-SP** is a benchtop volumetric peristaltic filling machine designed for precision and ease of use. Its user-friendly HMI touch screen interface ensures effortless operation, making it accessible to both newcomers and experienced professionals. This compact machine combines innovation with simplicity, offering reliable and sterile filling solutions for various industries, including pharmaceuticals, biotech, diagnostics, and medical applications.

### General Machine Specifications:

- HMI Touch Screen
- Suck back
- Electronic control of volume and flow rate
- Fill accuracy: Up to +/- 0.5%
- Inverter controlled AC brushless motor
- Food and pharmaceutical quality
- Single phase supply

### Optional Equipment:

- Pneumatic nozzles
- Automatic upgrade available
- Different tubing sizes available
- Double pump system
